protection for
over 10 million
vehicles
worldwide.**

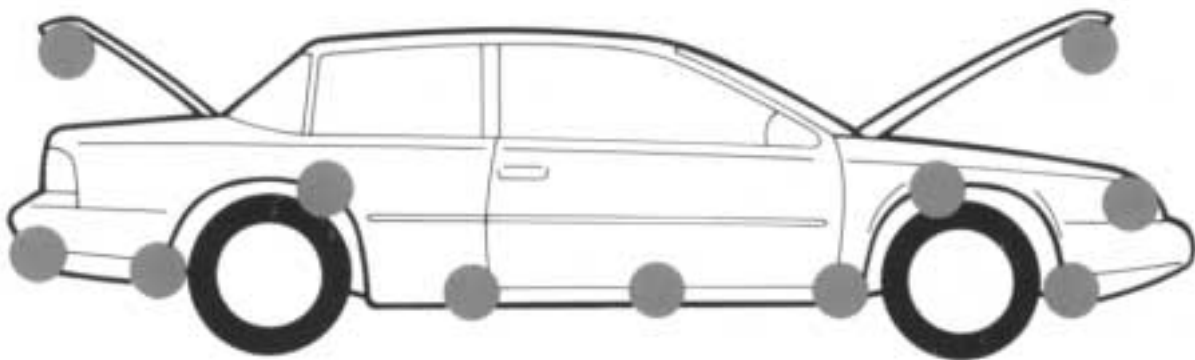

ANTI-RUST COMPOUND

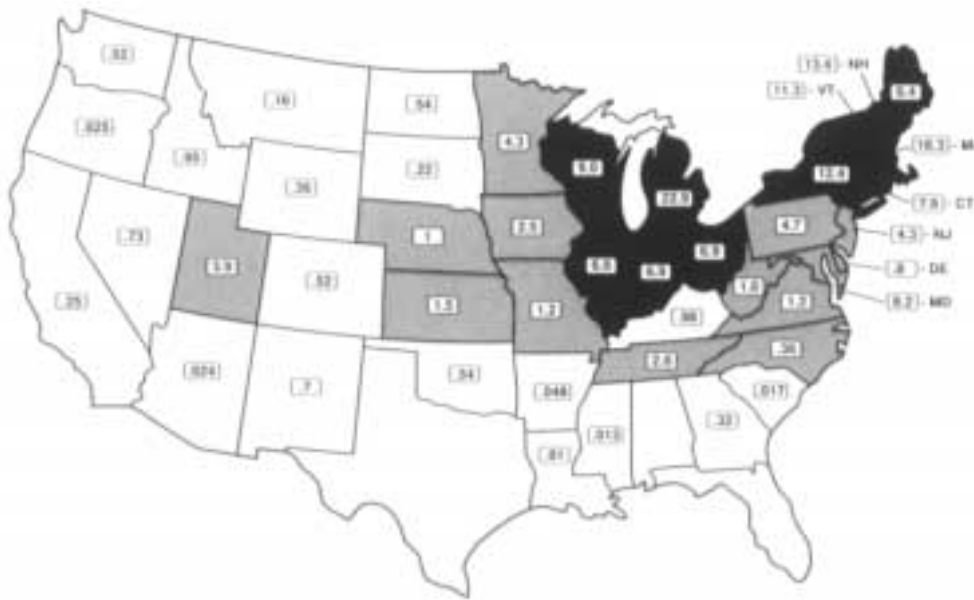

The R-2000® Advantage

- Protects against corrosion!
- Keeps rust out of hard-to-reach places!
- Maintains vehicle looks and value!
- Lifetime Insured Warranty!

Buying and selling a car or truck is an opportunity to establish a long-term relationship between dealers and customers. Both parties want the vehicle to remain in good shape throughout the ownership cycle. Ideally, years down the road, the vehicle will earn the maximum trade-in allowance.

Tons of Salt Used Annually Per Lane Mile

R-2000® Anti-Rust Compound helps satisfy customers!

R-2000® Anti-Rust Compound helps keep every treated vehicle looking new in spite of exposure to salt, snow, humidity, moisture and other damaging elements.

R-2000® Anti-Rust Compound is scientifically formulated to protect hard-to-reach areas against rust and corrosion. It is a wax-based treatment that protects unpainted surfaces and recessed cavities where rust can occur undetected.

Best of all, R-2000® Anti-Rust Compound is available with a transferable Lifetime Insured Service Agreement. So customers will be protected for as long as they own their car or truck.

R-2000® VEHICLE PROTECTION PRODUCTS

R-2000® takes pride in manufacturing many of the highest quality vehicle protection products used in the automotive industry today. R-2000® products include upholstery and fabric treatment for car interiors made with DuPont™ *TEFLON*® textile finish to resist stains and paint protection made with DuPont™ *ZONYL*® surface active agents to resist environmental attack. Quality is also the reason R-2000® is able to offer a first-dollar insurance program. That means you're covered from the first dollar spent - no deductible! R-2000® vehicle protection products — a real value any way you measure it.
